ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT:

FOOD: Wagner et al. (2011) list Tall Jointweed (<i>Polygonella gracilis</i>) as a host plant. This plant is extremely rare in North Carolina, and has only been found at a single site in Hoke County. It does not seem to be present on the coast where we have found <i>Schinia scissoides</i>, so other host plants must be used in North Carolina.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: GNR S2S3

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
