ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: A number of our records come from residential areas where Boxwood may be cultivated. Others come from natural habitats but range from barrier islands to montane cove and alluvial forests

FOOD: Larvae feed on Boxwood (Covell, 1984), but the native hosts used by this species appear to be unknown

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: GNR SU

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.
