ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: The majority of our records come from barrier islands, with another large group coming from Coastal Fringe Sandhill communities on the adjoining portions of the mainland. We also have a record from xeric sandridge habitat along the Lumber River in Columbus County. Live Oak is present to common in all of these areas.

FOOD: Larvae feed on Live Oak (*Quercus virginiana*) (Wagner et al., 2011)

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 S3S4

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
